

Welcome!

My team and I are happy to welcome you to our office. We promise to work closely with your dentist and ensure you achieve the most attractive smile and the best oral health. I am a specialist with over 20 years of experience in periodontics, gingival grafts and dental implants. My experienced team members will answer your questions and strive to keep you relaxed and comfortable.

If you have a separate list of current medications, including their dose and purpose, please bring it to be copied. Certain medications and health conditions can have a major impact on your oral health and that can influence our treatment recommendations.

At your first visit we will review your treatment goals, perform a comprehensive oral exam, discuss your treatment options and address concerns. The exam will take one hour but allow 1 ½ hours to get all of your questions answered and any future appointments scheduled. Bring your calendar. We also encourage you to bring your spouse because they are often curious about your treatment as well.

The fee for our consultation is \$145.00 due and payable on the day of service. If you have dental insurance please bring your information. As a courtesy we bill your insurance so any reimbursement can go directly to you. We are not contracted with any HMO or PPO plans except Delta Dental. Please call if you have any questions.

Many of our patients admit they were afraid to come to the periodontist, but like them, I am sure you will find we will work hard to earn your trust and make you comfortable while you receive the best possible care.

We look forward to getting to know you!

Making Smiles Last a Lifetime,

Daniel D. Roberts DDS
